| • Next.js | • HTML5 | • RESTful APIs | • AWS | • GitHub |
| • Redux | • Responsive Web Design | • Tailwind CSS | • Figma | • Express.js |

INTERNSHIP/TRAINING

Launchpad Trainee | PwC [Feb 2024-June 2024]

Completed Micro-Certifications in:

- | | | |
|-------------------------|-----------------------|-------------------|
| • RDMS with Oracle | • Programming in Java | • IT fundamentals |
| • Responsive Web Design | • Cloud and DevOps | |

Design Intern | FUTURUS (Haryana-based Startup) [Sept 2023-Nov 2023]

- Designed posters and banners to enhance the company's online presence.
- Received a Letter of Recommendation for outstanding performance.

PROJECTS

Title - Cypher AI: AI-Powered Interview and Resume Preparation Platform [Link] [Feb 2024]

- Facilitated advanced text and voice communication** by integrating the Speech Recognition API for voice input and the Speech Synthesis API for voice output, **enhancing user engagement and accessibility**.
- Seamlessly **integrated Gemini-Pro Model using APIs** to generate responses for the chatbot (Interview Assistant) and perform resume analysis, leveraging its capabilities for dynamic and intelligent interactions.
- Designed and deployed a comprehensive security framework **utilizing CORS to enhance API endpoint** protection, achieving a significant improvement in data integrity and safeguarding interactions.
- Tech Stack:** Next.js, React.js, react-markdown, WebKitSpeech API, OCR, Express.js, Node.js, Gemini API.

Title - 'EVOLVE': YouTube Optimizer. [Sept 2023]

- Implemented the **YouTube Data API to fetch comments** and the Gemini API to process and analyze these comments, providing comprehensive insights into viewer feedback and engagement. g
- Utilized React concepts such as **state management, hooks, and component lifecycle** to build a dynamic and responsive user interface, ensuring efficient handling of state and smooth user interactions across analytics, chatbot, and profile pages.
- Tech Stack:** Next.js, MongoDB, Express.js, Node.js, React.js, Gemini API, YouTube Data API.
