CAREER OBJECTIVE

To secure a position where I can apply my proficiency in React.js, Next.js, and design principles to build innovative and user-friendly interfaces. I am eager to contribute to the dynamic team, expand my skill set, and eventually transition into Full-Stack Development.

EDUCATION

B. Tech in Computer Science & Design

[2021-2025]

Institute: Yeshwantrao Chavan College of Engineering, Nagpur

(Score: 9.18 CGPA)

Honors in AWS & DevOps

[2024]

Institute: Yeshwantrao Chavan College of Engineering, Nagpur

(Score: 8.0 SGPA)

HSC

[2021]

Institute: Saraswati Junior College, Nagpur

(Score: 92%)

SSC

[2019]

Institute: Vishwa Jyoti Convent School, Talodhi, Chandrapur

(Score: 86.67%)

TECHNICAL SKILLS

- **Programming Languages:** Java (DSA), JavaScript (DEV)
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Next.js
- **Database Management:** SQL, MongoDB
- **Other tools:** Git, GitHub
- **Design Tools:** Adobe Illustrator, Figma

INTERNSHIP/TRAINING

Launchpad Trainee | PwC

[Feb 2024-June 2024]

- Completed a virtual training program with module-based learning and assessments covering the concepts including IT fundamentals, RDBMS using Oracle, Java programming, DevOps & Cloud fundamentals, and Responsive Web Design.

Design Intern | FUTURUS (Haryana-based Startup)

[Sept 2023-Nov 2023]

- Designed posters and banners to enhance the company's online presence.
- Received a Letter of Recommendation for outstanding performance.

PROJECTS

Title - Cypher AI: AI-Powered Interview and Resume Preparation Platform [\[Link\]](#)

[Feb 2024]

- **Facilitated advanced text and voice communication** by integrating the Speech Recognition API for voice input and the Speech Synthesis API for voice output, **enhancing user engagement and accessibility**.
- Seamlessly **Integrated Gemini-Pro Model using APIs** to generate responses for the chatbot (Interview Assistant) and perform resume analysis, leveraging its capabilities for dynamic and intelligent interactions.
- **Implemented stringent security measures using CORS** to safeguard API endpoints from unauthorized access, ensuring secure and controlled interactions with the system.
- **Designed, developed and deployed the platform.**
- **Tech Stack:** Next.js, React.js, react-markdown, WebKitSpeech API, OCR, Express.js, Node.js, Gemini API.

Title - 'EVOLVE': YouTube Optimizer.

[Sept 2023]

- Implemented the **YouTube Data API to fetch comments** and the Gemini API to process and analyze these comments, providing comprehensive insights into viewer feedback and engagement.
- Utilized React concepts such as **state management, hooks, and component lifecycle** to build a dynamic and responsive user interface, ensuring efficient handling of state and smooth user interactions across

analytics, chatbot, and profile pages.

- Tech Stack: Next.js, MongoDB, Express.js, Node.js, React.js, Gemini API, YouTube Data API.
